

## Collaborative Plan

Between

**The Thai Association for Emergency Medicine (TAEM)**

and

**The National Association of EMS Physicians® (NAEMSP®)**

### **1. Purpose**

The purpose of the Collaborative Plan is to establish a partnership that promotes joint initiatives in the fields of emergency medical services, prehospital care, emergency medicine, disaster medicine, and public health between the listed parties.

### **2. Activities**

The Parties will consider areas of collaboration containing these potential areas. These areas will be periodically reviewed and updated.

## Potential Areas for Collaboration

The following are the potential areas of collaboration between Thai Association for Emergency Medicine, Bangkok, Thailand and the NAEMSP®.

1. Strengthen educational and training programs in , emergency medical services, prehospital care, emergency medicine and disaster preparedness.
2. Develop a visiting professorship/fellowship in emergency medical services and emergency and disaster medicine.
3. Identify joint opportunities for research with the goal of contributing to the prehospital, disaster and emergency medical literature

These potential areas of collaboration may be utilized to mutually develop a preliminary action plan, which will be periodically reviewed and updated.

The signatures below verify acceptance from both organizations of the above agreement.

Ronald G. Pirrallo, MD, MHSA
