Tactical Emergency Medical Support Course: A product of NAEMSP's TEMS Task Force

Cost: NAEMSP Member: \$25.00 Non-member: \$40.00

Authors: Alexander P. Isakov, MD; Joseph Heck, DO; Cliff Neal, DO; Marc Gautreau, MD

This Tactical Emergency Medical Support (TEMS) course is an introduction to TEMS for law enforcement administrators. It is a modular, self-directed course in PowerPoint that can be used in its entirety as the basis for a formal TEMS course or on a section-by-section basis to augment other educational programs and learning. This course is formatted onto a CD-ROM. Highlights of the sections include:

- ◆ The History of TEMS
- ◆ Goals of a TEMS program
- ◆ Other Support Functions
- ◆ Requirements for TEMS
- ◆ What a TEMS program can do for you

System Requirements: Adobe Acrobat 5.0, MS Internet Explorer Web Browser (free downloadable versions of both included on the CD), and Microsoft PowerPoint

Air Medical DispatchCD: Guidelines For Trauma Scene Response - A product of the NAEMSP Air Medical Services Committee

Cost: NAEMSP Member: \$25.00 Non-member: \$35.00

In some areas of the United States, air medical helicopter transport is routinely used for responding to trauma scenes, especially motor vehicle crashes. In other areas, helicopters are used infrequently, if at all, for such responses. The National Association of EMS Physicians (NAEMSP) has developed a consensus document, *Air Medical Dispatch: Guidelines for Trauma Scene Response*, published in *Prehospital and Disaster Medicine* in January-March 1992.

The NAEMSP Air Medical Services Committee felt that there was a need to bring the document "to life" in an effort to better integrate air medical services with ground emergency medical services and public safety officials. Local EMS squads, air medical services, and law enforcement agencies are clearly the important audiences for this educational program.

Base Station Course: A product of the NAEMSP Education Committee
Cost: NAEMSP Member: \$35.00 Non-member: \$45.00

Authors: History of EMS: Ed Dickinson, MD; Communications: Jeff Grunow; Personnel and Training: Jack Grandey, NREMT and Ed Dickinson, MD; Medical-Legal: Ed Carlson; Interacting with the EMT-Basic: Ed Dickinson, MD

This course is designed to be of use to all physicians who provide online medical direction to prehospital providers. It is a modular course that can be used in its entirety as the basis for a formal base station course or on a section-by-section basis to augment other educational programs and learning. This course is formatted onto a CD-ROM. Sections include:

- ◆ The History of EMS.
- ◆ Prehospital Providers (including levels of certification, training and skills).
- ◆ Communications.
- ◆ Base Station Physician Interaction with EMT-B's (in keeping with the revised DOT EMT-B curriculum).
- ◆ Medical-Legal (aspects of medical direction and base station operations).

Mass Gathering Medical Care: The Medical Director's Checklist: A Product of the NAEMSP Standards & Clinical Practice Committee

Cost: NAEMSP Member: \$15 Non-member: \$30

Authors: David Jaslow, MD, MPH; Arthur Yancey II, MD, MPH; Andrew Milsten, MD
